### **Building Surveying Experience**

Kanchanie has 11 years experience in the construction industry in the areas of structural & civil design, construction & project management on projects ranging in size from housing to large commercial developments.

She brings extensive international experience to Katnich Dodd having spent 4 years in Norway and over 7 years in China working in engineering and construction with multi-national entities. These included the United States Embassy – Construction Department, AT&T and Siemens Ltd head-quarters in Beijing.

Kanchanie is a quietly confident person who works to a high technical and professional level.

Since joining Katnich Dodd in 2002 and further qualifying as a building surveyor, Kanchanie has been expanding her expertise through involvement on a large range of commercial and residential projects. Her engineering experience has substantially enhanced Katnich Dodd's depth of expertise in this area.
